Roofinox Classic 304/316L

The brush-rolled stainless steel

- Looks 4 times as matt thanks to its unique brush-rolled surface
- Very easy to seam, because Roofinox is 20% softer
- Reduced machine and tool wear
- Special surface for 88% less gloss level
- "Self-cleaning effect" thanks to brush rolling.
- 100% natural surface (non-laminated) due to special production process
- Modified production sequence ensures higher corrosion resistance
- Special surface structure for excellent solderability
- Extremely easy to clean

Roofinox Classic is your all-round roofing metal. It can be used in a wide range of areas:

Roof

Cladding

Drainage

(Guttering, pipes, accessories)

Sheet metal crafted products

(Verge, eaves, ridge, base, valley channels, fascia cladding)

Window surrounds

(Lintel, soffit, sill)

Combined with other cladding materials, (such as plaster, wood, slate, panels, etc.) Roofinox Classic provides an attractive contrast that complements other colours.

The advantages of Roofinox stainless steel

- 100% recyclable
- Made with approx. 85% recycled stainless steel
- Long life, because there is no material erosion (see the Chrysler Building, NY, built 1930)
- No problems with normal moisture caused by condensation
- Low maintenance and easy to clean
- Resistant to algae and roots
- Can be processed even at low temperatures
- Can be combined with other materials
- Lowest thermal expansion
