# Roofinox Chroma 1.4301

The mirror-rolled stainless steel

- Chroma achieves over 90% of the gloss level (mirror effect) of hand-polished stainless steel
- A far superior degree of greyness ensures improved colour retention
- 30% shinier (mirror effect) than bright-annealed stainless steel
- Very easy to seam thanks to special heat treatment
- Reduced machine and tool wear
- 50% less roughness for a shinier surface
- 100% natural surface (non-laminated) due to special production process
- Excellent solderability
- Extremely easy to clean

**Roofinox Chroma is your mirror sheeting.**  
It can be used in a wide range of areas:

**Roof**

**Façade**

**Drainage**

(Guttering, pipes, accessories)

**Sheeting**

(Verge, eaves, ridge, base, valley channels, fascia cladding)

**Window surrounds**

(Lintel, soffit, sill)

Roofinox Chroma is perfect for achieving a surprise effect. Thanks to the reflection, the building envelope looks as if it is moving. It can, however, also have a vanishing effect.

## The advantages of Roofinox stainless steel

- 100 % recyclable
- Made with approx. 85 % recycled stainless steel
- Long life, because there is no material erosion (see the Chrysler Building, NY, built 1930)
- No problems with normal damp caused by condensation
- Low maintenance and easy to clean
- Resistant to algae and roots
- Can be processed even at low temperatures
- Can be combined with other materials
- Low thermal expansion
