Roofinox Pearl 304/316L

The bead-blasted stainless steel

- Ultramatt appearance thanks to its unique bead-blasted surface
- Very easy to seam
- Reduced machine and tool wear
- Lowest reflection on the market thanks to its special surface
- Less sensitive regarding shading and direction
- 100 % natural surface (non-laminated) due to special production processes
- Modified production sequence ensures higher corrosion resistance
- Special surface structure for excellent solderability
- Extremely easy to clean

Roofinox Pearl is your designer roofing metal.
It can be used in a wide range of areas:

Roof

Cladding

Drainage

(Guttering, pipes, accessories)

Sheet metal crafted products

(Verge, eaves, ridge, base, valley channels, fascia cladding)

Window surrounds

(Lintel, soffit, sill)

Combined with other cladding materials, (such as plaster, wood, slate, panels, etc.) Roofinox Pearl provides a classy-looking contrast that complements other colours.

The advantages of Roofinox stainless steel

- 100 % recyclable
- Made with approx. 85% recycled stainless steel
- Long life, because there is no material erosion (see the Chrysler Building, NY, built 1930)
- No problems with normal moisture caused by condensation
- Low maintenance and easy to clean
- Resistant to algae and roots
- Can be processed even at low temperatures
- Can be combined with other materials
- Lowest thermal expansion
