

ROOFINOX®

Like no other.

Roofinox Plus Matte 304/316L

The ribbed stainless steel

Advantages at a glance

- 20% cost saving
- Smoother appearance
- Mishaps less noticeable
- Less sensitive

www.roofinox.com

Roofinox Plus Matte 304/316L

The ribbed stainless steel

- Significant increase in surface stability thanks to ribbed surface of the 0.4 mm thick stainless steel
- 20 % cost saving per m2 by saving material
- Optical light refraction for a smoother appearance
- Corrugation makes minor mishaps less noticeable
- Less sensitive during processing
- Even more resistant to hailstorms
- Excellent solderability thanks to embossing

Roofinox Plus 0.4 mm is your budget roofing metal. It can be used in a wide range of areas:

Roof

Cladding

Drainage

(Guttering, pipes, accessories)

Sheet metal crafted products

(Verge, eaves, ridge, base, valley channels, fascia cladding)

Window surrounds

(Lintel, soffit, sill)

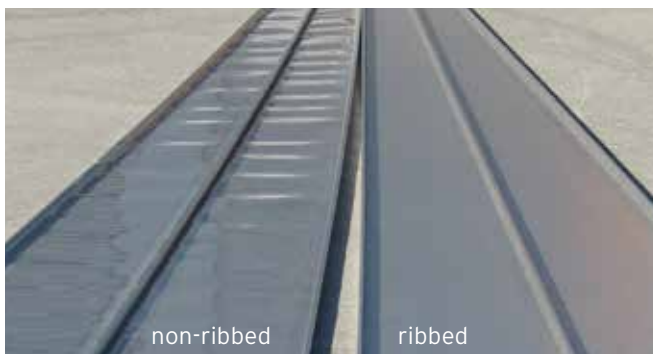

To create as "smooth" an appearance as possible, Roofinox Plus 0.4 mm is the ideal choice.

And the significant price advantage opens the door to the world of chrome-nickel stainless steel.

The advantages of Roofinox stainless steel

- 100 % recyclable
- Made with approx. 85 % recycled stainless steel
- Long life, because there is no material erosion (see the Chrysler Building, NY, built 1930)
- No problems with normal moisture caused by condensation
- Low maintenance and easy to clean
- Resistant to algae and roots
- Can be processed even at low temperatures
- Can be combined with other materials
- Lowest thermal expansion
