

ROOFINOX®

Like no other.

Roofinox Spectra 1.4301/1.4404

The pigmented stainless steel

Advantages at a glance

- Stainless steel in color
- Natural shades and textures
- Beautifully glazed surface
- Ideal for roof and facade

Roofinox Spectra 1.4301/1.4404

The pigmented stainless steel

- Natural colors with original texture shining through
- Elegant satin finish
- Pigmentation treatment of stainless steel developed exclusively by Roofinox
- Structured surface, beautiful texture
- Attractive and elegant colors for architectural design
- Perfect complement to all other building materials
- Beautiful contrast with other surfaces
- Even higher corrosion resistance

Roofinox Spectra - the stainless steel with natural colors and original texture. Perfect for:

Cladding

Roof

(Ventilated / non-ventilated, roof flashings)

Rainware

(Gutters, elbows, accessories)

Roof flashings

As a supplement with other cladding materials Roofinox Spectra offers an esthetic contrast with a satin finish.

The advantages of Roofinox stainless steel

- 100 % recyclable
- Made with approx. 85 % recycled stainless steel
- Long life, because there is no material erosion (see the Chrysler Building, NY, built 1930)
- No problems with normal moisture caused by condensation
- Low maintenance and easy to clean
- Resistant to algae and roots
- Can be processed even at low temperatures
- Can be combined with other materials
- Lowest thermal expansion
